UNLOCK LEGENDS SCREEN

This year, NBA Live 2000 assembles the greatest roster of NBA Legends playable on All-Star teams of the past 5 decades. When you unlock the Legends, they become available as free agents when you achieve gameplay milestones.

⇨ You can get to the Unlocked Legends screen from the Quick Menu.

● Legends become available when you achieve milestones during games. If you achieve a milestone, a notification screen and a list of unlocked players appear after the game. To review the information on how to unlock a player, highlight a locked player's name in the Unlock Legends screen and press ✖.

⇨ To review a different Legends team, D-Button ↔.

⇨ To unlock an available Legend, D-Button ↕ to any player listed as "Inactive" and press ✖. That player is added to the free-agent pool. Legend players can be made Inactive again when you place them back in the free-agent pool.

⇨ To save your unlocked Legends, select SAVE LEGENDS from the Memory Card screen. To restore unlocked Legends from a Memory Card choose LOAD LEGENDS.

USER SETUP SCREEN

An icon for every controller plugged into the system appears on this screen. Up to eight players can play if two Multi Tap adapters are attached.

⇨ When all players have selected their teams and user names, press **START** to go to the pregame introduction.

To enter a new user name:

1. D-Button ↕ to highlight New User and press ✖.
2. D-Button ↕ to select a letter. Then press ↔ to add another letter.
⇨ To delete a letter, press ■ or ●.
3. To accept the name, press ✖. Then press **START** to continue.

To delete an existing name:

⇨ D-Button ↕ to highlight a user name and press ■. Then confirm the deletion.

TIP: Create a user name to save your stats and your controller and menu options to the Memory Card.

PREGAME INTRODUCTION

Before the game, the Pregame Introduction displays the teams and home court, followed by the Starting Matchups screen. You can change your starting lineup if needed.

- To substitute a player, D-Button ↕ to highlight the player and then D-Button ↔ to select the substitute.
- To exclusively control the highlighted player (Player Lock), press ✕.
- When you're ready to get to the court, press START. For information about how to play during the game ► control summary on p. 3.

PAUSE MENU

- To pause the game, press START. The Pause menu appears. When options are dimmed, you cannot select them.

INSTANT REPLAY: You can replay the last few seconds of action during the game.

- To view the replay from the highlight cameras, press L1/R1 until you see the CAMERA in the camera name. To select a specific highlight camera, press L2/R2.

TIME OUTS: When you have possession of the ball or there is a stoppage in play, you can call a time out. Each team starts a game with 7 time outs.

- To call a time out, press START, then select TIME OUT from the Pause menu. The SUBSTITUTION option becomes available if it was not.

SUBSTITUTION: You can substitute players when play is stopped between quarters, by a time out, or by a violation. When you select automatic subs in the Team Strategy screen ► Team Strategy below, the computer subs players for you.

- To make a substitution, highlight a player and press ✕. Then select the player you want to bring in the game and press ✕ to insert that player into the lineup.

STATISTICS: View player, team, and user stats.

SHOT DISPLAY: View shots taken and made by quarter for each team and player.

TEAM STRATEGY: You can call your own game if you want more control. Use the Team Strategy screen to configure the default sets and other strategy options. Each team has its own sets and plays.

Offense: Set to AUTO to have the computer call plays, or D-Button ↔ to select a specific set and then L1/R1 to select a specific play in that set.

Defense: Set to AUTO to have the computer call defensive sets, or D-Button ↔ to select a specific set.

Crash Boards: Set to ON to make your players try to rebound misses at both ends of the court. AUTO leaves the choice to the computer.

Box Out: Set to ON to make your players focus on defensive rebounding. Set to OFF to let them try for fast break points. AUTO leaves the choice to the computer.

- To cycle defensive pressure options (LOW, MEDIUM, HIGH, and AUTO) for the highlighted defender, press L.

Auto Subs: When ON, the computer automatically subs for players who are tired or in foul trouble and manages your time outs.

Play Notify: When ON, an overlay on the game screen notifies you which play is called. Default is OFF.

Auto Sub Notify: Toggles notification of player substitutions ON/OFF.

Use controller buttons to access advanced Strategy settings.

Go to Defensive Strategy screen	✕
Go to Offensive Strategy screen	●
Go to Defensive Matchups screen	■

- To map plays to gamepad buttons in Offensive or Defensive Strategy, highlight a button to map and D-Button ↔ to map a strategy to that button.
- In Offensive Strategy, press L1/R1 to cycle through the plays in each set.
- To call the play during gameplay, press SELECT + the appropriate button.

Defensive Matchups: Control how your defenders match up against the offense.

- To change the matchup for the highlighted player press ✕. Then highlight the player you want to guard and press ✕ again.
- To cycle double-teaming options for the offensive player assigned to the highlighted defender, press ■. The default is "A" (Autoswitch).

CAMERA OPTIONS: Set your camera and replay options.

PLAY OPTIONS SCREEN: Jump to the various options screens.

Set Rules: Go to the Rules screen to change rules.

Set Options: Go to the Options screen.

User Setup: Change controller options—useful when a player leaves or joins a game in progress.

- To toggle Player Lock, press ● and D-Button ↑. **UNLOCKED** means that you can control any player; selecting an individual player means that you always control the player in that position—an important feature in multiplayer games.

Configure Controller: Go to the Configure Controller screen to select offensive and defensive button assignments and control methods.

- To select OFFENSIVE/DEFENSIVE controls, D-Button ←→.
- SHOT CONTROL MANUAL/AUTO. In MANUAL mode, your button presses determine the chance of a made basket. In AUTO mode, the shot's probability is determined by the NBA player's stats.
- Set VIBRATIONS to ON to cause vibrations in your DualShock® Analog Controller.

QUIT GAME: Exit the current game. Select GRUDGE MATCH (Exhibition games only) to start a new game with the current teams.

ROSTERS AND PLAYERS

From the Rosters screen, you can trade, sign and release players, or create custom teams with your own names and rosters.

- To cycle through other NBA teams, press L1/R1
- To edit the attributes of a Custom Team, when it is highlighted, press L2.
- To view player details, press R2. To compare players, press ■.
- To exchange the roster slot of two players, highlight a player and press ■. Then highlight the other player and press ■ again.

TRADING PLAYERS

You can trade players between your NBA team and any other NBA team. In Season and Playoff modes, you can make multiplayer trades—up to 3 players for 3 players. To make a multiplayer trade, teams must have enough free roster spots.

> **NOTE:** In Season mode, trades can't be completed after February 17 if ENFORCE TRADE DEADLINE is set to YES.

- To cycle through the NBA teams, press L1/R1. The number of free roster slots for the team is listed above each roster.
- To complete a multiplayer trade, add players to the available slots at the top of the screen, and press START.
- To toggle single-player and multiplayer trades, press L2.

> **NOTE:** Rosters are determined by actual NBA rosters as of October 8, 1999. Some players are not included in the game for legal reasons.

USING CUSTOM TEAMS

You can create up to 4 Custom Teams filled with NBA or created players or both.

> **NOTE:** The first time you select a Custom team, all of the roster slots are empty. You must fill at least 8 roster slots before you can continue.

PLAYERS SCREENS

Create new players or modify the ratings of an NBA player.

- To get to the Players Screens, use the Quick Menu.
- To cycle through teams, press L1/R1.
- To edit an existing player, highlight the player and press ■.
- When you change an NBA player's attributes, the data is saved in a Created Player slot. The player, however, retains his original roster spot.
- To delete a created player or reset a modified NBA player, select View Created Player from the Quick Menu. Highlight the player's name, and press ■.

MICHAEL JORDAN IN 1-ON-1

New to *NBA Live 2000*, Michael Jordan in 1-on-1 mode lets you prove yourself on a street court against the NBA's best, past and present, including Michael Jordan. In the Player Select screen, you choose two players to take to the One on One court. However, in order to play as Michael you must first beat Michael.

● To change the Possession Rule, go to the 1-on-1 Rules screen.

● In the Options screen, you select the court to play: DAY, NIGHT, or **RANDOM**.

⇨ To switch to the other player on the Player Select screen, D-Button ⇕.

⇨ To toggle user control, press ✖.

ON THE COURT

When the game begins, one player is chosen at random to shoot for first possession. During the game, shots from outside the arc count for 2 points, while all other baskets count for 1 point. The winner must win by at least 2 points.

⇨ To check the ball after a bucket, press ✖.

● If you get possession on a turnover, you must clear the ball behind the 3-point arc.

NBA DRAFT

In *NBA Live 2000*, you can complete a draft and save the rosters to your memory card. It's a great way to begin a new Season or Playoffs.

⇨ To view drafts for user-controlled teams only, set VIEW CPU PICKS to OFF.

DRAFT ORDER SCREEN

You set the order in which teams select in the upcoming draft.

⇨ To change the draft order, D-Button ⇕ to highlight the team and press ✖. Then D-Button ⇕ to highlight another team. To switch positions in the draft, press ✖ again.

⇨ To toggle CPU/USER control for the highlighted team, D-Button ↔.

⇨ To randomize the draft order, press ■.

NBA DRAFT SCREEN

After you select the draft order, proceed to the NBA Draft screen by pressing **START**.

⇨ To toggle the sorting of draft picks by rating or by alphabetical listing, press ■.

⇨ To view players by position, press **L1/R1**. To view players by different statistical ratings, press **L2/R2**.

⇨ To draft the highlighted player, press ✖.

⇨ To have the CPU complete the draft at any time, press **START**.

> **NOTE:** To save the rosters that you just drafted, select Memory Card from the Quick Menu, and select SAVE ROSTERS. A Saved Roster takes 1 memory block.

SEASON PLAY

In *NBA Live 2000*, you can take a team from the first game to the championship for up to 10 consecutive seasons. During a season, players can get injured and experience hot and cold streaks. Detailed stats update you on player performance.

SEASON SETTINGS SCREEN

NBA Live 2000 offers a variety of setup options.

SEASON TYPE: Leave at **NBA** to include all 29 NBA teams. Or, choose CUSTOM to adjust the League Size on the following line. For Custom leagues, you select the teams in the next screen.

ENABLE CPU TRADING: When **YES**, the computer proposes trades with other teams.

CPU TRADES WITH USER: When **YES**, the computer prompts users with trade offers.

TRADE NOTIFICATIONS: When BRIEF, you are notified in brief form of all trades. Default is **NONE**.

FULL STAT TRACKING: When YES, statistics for all players in all games are kept.

IMPORT WHICH ROSTER: When CUSTOM, user modified rosters are imported. To use official rosters, set to DEFAULT.

IMPORT CREATED PLAYERS: When YES, created players are placed in the Free Agents pool. When set to NO, created players are not used.

SEASON TEAM SELECT SCREEN

After you have configured your league, you must select which teams are controlled by users in the Season Team Select screen or Custom League screen.

☞ To choose a team to control, D-Button ↔

☞ To toggle USER/CPU control for the current team, press ✖.

SEASON TEAM SCHEDULE SCREEN

You can view the season schedule for user-controlled teams or for any or all teams.

☞ To play the next game, press START and choose your controls in the User Setup screen (▶ p. 8).

☞ To simulate a game at start of season, cycle the dates forward. Then press ✖.

☞ Use the Quick Menu (▶ p. 7) from the Team Schedule screen to review multi-season performance, team history, and other functions in season mode.

PLAYOFFS

Play an entire season to reach the Playoffs, or jump into the playoffs from the Game Setup menu. When you start your first Playoffs, the Settings screen appears.

DISABLE TRADING: When set to YES, trades are forbidden during the Playoffs, like the NBA.

● For more information on options in the Playoffs, see the Season Settings screen (▶ p. 15) which is similar.

PLAYOFFS SCREEN

The Playoff screen shows playoff pairings. User-controlled teams are highlighted. If you came to the playoffs after a season, the teams are based on season results. If you chose PLAYOFFS from Game Setup, you can select which teams are in the Playoffs.

☞ To change the team in the highlighted slot, press L1/R1. To toggle USER/CPU control for the current team, press ✖.

☞ To toggle between Western and Eastern Conference brackets, D-Button ↔

☞ When you set all your teams, press START to begin.

☞ To play the next game, press START. User-controlled games are played, computer-controlled games are simulated. To simulate a user-controlled game, press ✖.

☞ To review playoff results, press ■, highlight a matchup and then press ✖.

If you win around, your team advances to face a new opponent. If you lose, you can view the final playoff results in the Playoffs screen.

3-POINT SHOOTOUT

Up to eight players can compete in a 3-Point Shootout. Each basket counts as one point, except for the last ball on each rack, which counts as two points if you sink it.

EA TIP: If you don't want to miss the CPU player's turn, enter the 3-Point Options screen from the Quick Menu and set CPU Players to SIMULATE.

After choosing options, press START. The Player Setup screen appears.

☞ To toggle CPU/PLAYER control, press ✖.

☞ To choose a random player, press L2/R2.

☞ To cycle through the teams, press L1/R1.

☞ To cycle through all of the players on the highlighted team, D-Button ↔

☞ To toggle sorting players by last name or rating, press ■ and D-Button ↔.

ON THE FLOOR

- To grab the next ball from the rack, press R1.
- To shoot, press ■ ✖ ● or ▲. How long you hold the button affects the shot's accuracy.
- After a round you can change player control and review scores. Until two contestants are left, shooters with the lowest scores are eliminated at the end of each round.

PRACTICE MODE

The Practice facility gives you a chance to work on your skills. It's a great way to master the controls. Select PRACTICE from the Game Setup screen. Choose a player from the Player Setup screen.

● Select one of the Legends teams to play with a legendary player.

ON THE FLOOR

All of the offensive controls for individual moves work just like they do in a game.
► Control Summary on p.5.
- Practice is a great time to work on your DirectShoot skills. To try a dunk, layup, or hook shot while running toward the hoop, hold L2 + ■ ● or ▲.
